

**Utility Construction  
Notification**  
**This is NOT a City Project**

Please excuse  
our disruption.

We're building a 100% fiber optic internet in  
your neighborhood on behalf of Gateway Fiber.

We'll generally be working in the Right-of-Way, usually  
within 15 feet of the curb. In some cities, a Utility  
Easement may extend another 10 feet beyond that.

If you have any utilities in the easements,  
please mark them to help us avoid damage  
(sprinklers, dog fences, or private electric)

If you have questions regarding construction,  
please call the number below.
